FISCAL IMPACT STATEMENT

LS 6199

BILL NUMBER: SB 107

DATE PREPARED: Feb 25, 2002

BILL AMENDED: Feb 25, 2002

SUBJECT: Prescription Drug Advisory Committee.

FISCAL ANALYST: Kathy Norris

PHONE NUMBER: 234-1360

FUNDS AFFECTED: **GENERAL**
 X DEDICATED
 X FEDERAL

IMPACT: State

Summary of Legislation: (Amended) This bill extends the expiration date of the Prescription Drug Advisory Committee to December 31, 2004. The bill extends the date for the Committee to make prescription drug program design recommendations to the Governor and the Family and Social Services Administration to December 31, 2004. The bill also provides that a member of the Prescription Drug Advisory Committee is to be a township trustee.

The bill allows for the deposit of drug rebates from the Prescription Drug Program (Program) in the Prescription Drug Account. It allows money in the account to be used to match federal funds. The bill requires the Office of Medicaid Policy and Planning (OMPP) to seek a federal waiver for the program after the proposed waiver has been reviewed and approved by the Committee. It also requires the proposed waiver to limit state expenditures to money appropriated from the Tobacco Master Settlement Fund (Fund). The bill also provides that money appropriated to the Prescription Drug Account from the Tobacco Master Settlement Fund in 2000, but that was not placed in the Account, is appropriated to the Account. The bill further requires OMPP to establish a point-of-sale system in the program before July 1, 2002. It also provides that a prescription is valid for one year from the date the prescription is filled.

Effective Date: (Amended) December 30, 2001 (retroactive); Upon Passage; July 1, 2002.

Explanation of State Expenditures: (Revised) This bill would extend the expiration date for the Prescription Drug Advisory Committee by three years. (The Committee statutory authority expired on December 30, 2001, under current statute.) The Committee consists of eleven members appointed by the Governor and four non-voting legislative members. Expenses incurred by the members of the Committee are paid from the Indiana Prescription Drug Account which is appropriated from the Tobacco Master Settlement Agreement Fund. Committee expenses are estimated to fall within the amount allocated for legislative interim study committees of \$9,000 annually.

The bill would also appropriate \$15,516,618 from the Tobacco Master Settlement Agreement Fund. This amount is the balance of funds that were not moved to the Prescription Drug Account during the first year of operation. The original appropriation expired June 30, 2001. This provision restores the funding level originally appropriated for the Prescription Drug Account. The bill further specifies that money in the account does not revert to the Tobacco Master Settlement Agreement Fund but remains available for expenditure in the Indiana Prescription Drug Program (Hoosier Rx). The bill also allows the funds in the Prescription Drug Account to be used to leverage federal funds.

The bill authorizes OMPP to seek a Medicaid Section 1115 Waiver for a Prescription Drug Program. The availability of the Medicaid Prescription Drug waivers is a recent development, and the allowable parameters of the programs are not well defined. The specific requirements for the benefit level and the eligibility of any waiver program within Medicaid must be reviewed and approved by the Prescription Drug Advisory Committee before it may be submitted to CMS. The bill also requires that any waiver program developed must limit the state share of the Medicaid waiver to the amount of funding appropriated to the Prescription Drug Program from the Tobacco Master Settlement Agreement Fund.

The bill also specifies that the Hoosier Rx Program may limit access to prescription drugs under the waiver only to the extent that controls are in place in the Medicaid program as of July 1, 2002. The bill also requires that OMPP implement a program that provides the benefit at the point of sale rather than rebating the cost incurred as is currently done.

Explanation of State Revenues: (Revised) The bill would allow for any drug rebates associated with the Hoosier Rx Program to be deposited in the Prescription Drug Account.
